Reasons why project is exempt:

The construction and installation of a canopy PV solar system on top of an existing building and over an existing asphalt parking lot is to provide electricity to the County. The canopies, solar arrays, inverters, AC combiner, utility line and trenching and security fencing, are minor structures appurtenant to the existing building and parking lot. There are no sensitive resources in the project area. Therefore they are classified as exempt from the provisions of CEQA under section 1503 - Class 3, New Construction of Small Structures; Section 15304 - Class 4, minor alterations to land; Section 15311 - Class 11 accessory structures. None of the exceptions to these Categorical exemptions apply.
